

Pay Schools Central allows you to:

1. Add money to your child/children's lunch account
2. Check the balance of their lunch account
3. See what items they are purchasing during lunch

Pay Schools Central is the same program we use in the cafeteria each day! Formerly known as payforit.net. If you have an account through payforit.net, it will automatically transition over to payschoolscentral.com

How do I enroll:

1. Go to www.payschoolscentral.com
2. Click on "register" if you're a new user
3. Fill in your information (as the parent/guardian)
4. Agree to the terms and conditions at the bottom of the information page and click "Submit"
5. An informational box will pop-up telling you to check the email address you just entered to confirm your registration and set-up a password (it must check your email address to complete the registration within 30 minutes or the process must be started over). It only takes about 5 minutes to receive the email.
6. Open the email from Pay Schools Central and confirm you account by clicking "this link" (in blue).
7. This will take you right to payschoolscentral.com.
8. Enter your email address, new password and confirm the password.
9. Now login and follow the prompts!

You will need your child/children's Student ID (5 digit # that also serves as their Lunch acct #). Once you have the enrollment complete and all of your children added onto the account, it is very simple to navigate and available whenever is convenient for you!
